Letter of Protest

TO WHOM IT MAY CONCERN

I, Rainer Schadewitz, Master of the MV "Westwood Pacific" herewith protest against the fuel supplier Hyundai Oilbank Co., Ltd. Vonsei Bldg, 84-11 Namdaemunro-5Ga Jung-Gu, Seoul, Korea.

On our last call Busan on the 03rd of November we received from the above mentioned company 100 mt. of MGO. According the FOBAS analysis this fuel has a sulfur rate of 0.14% what is contradictorily to the bunker delivery note. With this sulfur contents, the fuel does not meet the requierments according MARPOL 73/78 Annex VI Reg. 14.

The vessel will be hold free from any charges/cost which are arise from the last received fuel in Busan.
